

I as a parent send my child(ren) to Saint Luke because ...

"We are extremely pleased with the Early Childhood Program at Saint Luke. After attending another nationally franchised early childhood education program, the curriculum, personalization and care at Saint Luke is outstanding in comparison. Our daughter has grown in both social and academic arenas and always wants to go to school to see her teachers and friends. We are so thankful for the welcoming and supportive community at Saint Luke School."

"Mrs. Fisher and Mrs. Woody are truly amazing and a genuine blessing for our family. My son feels so welcome, loved and cared for there. I am shocked everyday with what my son comes home with. They really put in a great deal of effort with the children, and it shows in all of the projects that he brings home to share with his family."

"Mrs. Peters, Thank you so much for a wonderful presentation at Curriculum night. It is easy to see why our son has made such a smooth transition to full day Kindergarten and is so excited to come to school every day. Your enthusiasm for your students and teaching is amazing and we feel so lucky that our son is able to spend his day in such a nurturing environment."

"My husband and I recently moved our family to Itasca - we heard nothing but good things about Saint Luke so we registered our twins for preschool there. I can say that moving to this town, and sending our kids to St Luke, were two of the best life decisions we've made. Mrs. Fischer and Mrs. Woody, the kids' preschool teachers, are complete angels. I love them and my kids love them - in fact, my son just told me he wants to be Mrs. Fischer when he grows up! I really appreciate how patient they are with the kids as well as how dedicated and passionate they are about their jobs and the children's success. They really are great at getting to know each child, giving individualized attention and also making learning fun! Dropping my kids off the first day was tough but we haven't looked back. From the second day on, they've been anxious to get to school. They always talk about their friends and all the fun projects and activities they're doing. It has also been awesome seeing them participate in the (Early Childhood) Angel choir and listening to them sing at church. I also hear my son singing songs at home about the different colors they've studied, and we love dressing them up for their "Color Celebration" days. I also look forward to Mrs. Fischer's "peek at our week" that she sends home in their folders so I know everything they've been working on. Even when the kids are sick they want to go to school, they're always anxious to get back, and it makes me so happy that they love school. I think it's great how they have a set routine where they attend chapel on Wednesdays and gym on Thursdays, and how they're always bringing home new projects and things they've created at school for the holidays and so forth. My kids have really learned and developed a great deal in less than a year, and I attribute that to Saint Luke. I also love that the school is centered around kids!"

“Christian values and faith in Jesus, as well as the spirit of giving, being kind, and having love and respect for others. If you're considering sending your kids to Saint Luke, I wouldn't think twice! I can't imagine a better early childhood program or school for my kids.”

“My son's preschool experience at Saint Luke exceeded my expectations. I was very pleased with the class structure and curriculum, but the teachers made this preschool program truly remarkable. Mrs. Fischer and Mrs. Woody cared so much for my son. They took the time to get to know him, and they understood how to teach him and nurture him. Because of this, my son was excited for school days and couldn't wait to get to class! We couldn't have asked for a better start in school.”

“My daughter is in the afternoon Pre-K Program with Mrs. Schnabel. My daughter cannot wait to go to school everyday - she absolutely loves it. Mrs. Schnabel does such an amazing job with these kids! My daughter teaches us songs all the time - whether it be a song to give thanks before we eat dinner, a song to give blessings for a birthday, or a song to help remember how to write the letter k! I think this is awesome. She genuinely cares for the kids and makes learning so much fun for them. This was the best choice I could have made as to where to send my daughter for school!”

“My husband and I could not be happier in our decision to send our daughter to Saint Luke. She absolutely adores her teacher, Mrs. Schnabel, and all of the staff in Christian Care. Every teacher/staff member always greets my daughter with a smile and have clearly taken the time to get to know her. She's learning so much and as a teacher myself I'm impressed with all they accomplish in a half day program. My daughter has taken an interest in learning about God, and has been "teaching" my husband and I all that she's learned through her Jesus time at Chapel. Saint Luke is a very inviting, friendly, and safe school, from her Pre-K class to her Christian Care classes. I feel very secure with her being here and the fact that she's happy and eager to go to school every day is just the extra bonus. My husband and I feel beyond blessed to be a part of the Saint Luke family.”

“This is our second year in the Early Childhood Program at Saint Luke and we couldn't be happier. Our daughter adores Mrs. Peters, Mrs. O. and Mrs. Ebert and is truly thriving in her Kindergarten classroom. I cannot say enough positive things about the school and staff. Everyone is extremely friendly and when you walk in the school it truly feels like you are a part of a wonderful family. Our daughter is learning so much, and has truly come to know and love Jesus, and that...is priceless. She's growing so much academically, emotionally, and spiritually and it has been a blessing to see. The before and after school care helps us out tremendously and everyone there is friendly and willing to answer any questions. We feel very fortunate to have our daughter in the care of the Saint Luke family. She's building such positive relationships with teachers and students, and loves the fact that she still gets to see Mrs. Schnabel everyday; clearly a strong bond she made last year. Our child is safe, confident, and happy. Sending our daughter to Saint Luke was by far the best decision we've made.”

“Our children have had the opportunity to learn from Mrs. Fisher in Preschool, Mrs. Schnabel in Pre-K and Mrs. Peters in Kindergarten. All three teachers have greatly exceeded our expectations in their passion for teaching and sharing God's message, and their obvious love for our children. Our children truly love to go to school every day to see their friends and the wonderful staff at Saint Luke. We are so happy that we chose Saint Luke as the foundation of their life-long journey of learning.”

“Saint Luke has excellent, dedicated staff in every classroom who are willing to go the extra mile for my child or any child in the school (this includes staff always having time to set up a personal meeting if there are any concerns). There is always understanding from the staff if personal concerns arise within families and they are very willing to work with you on finding a solution or offer assistance in any way they can; not because it is a requirement, but because they get to truly know and care about each child and their family. (They have the opportunity to do so because of the smaller classes as well)”

“In a world where prayer and religion are banned from public schools, it is taught, encouraged and reinforced at Saint Luke. My children have the ability to learn and know their Savior through Christian education, provided by loving, caring teachers and staff. Saint Luke provides a wonderful atmosphere for children to grow academically, socially and spiritually, and has a wonderful program that produces results. Standard testing scores prove that the children who get the small-class attention that Saint Luke provides, exceed academically. It is a wonderful place to live, learn and grow.”

“Not only are my children receiving an excellent education but I know they are surrounded by loving, caring, a positive staff in a safe environment. We appreciate that our children have thrived on the educational program at St Luke and have also grown spiritually and socially within themselves and with their peers.”

“The teachers truly value educating the children in an engaging, spiritual manner. My daughter looks forward to school everyday and even doing her homework! My daughter has really improved from an educational standpoint, but emotionally and spiritually there has been a lot of growth as well. She is confident, happy, and very much engaged with the church.”

“Not only is my child receiving an amazing start to her education with all of the hands on learning but she is also truly cared for by all of the caring and compassionate teachers and staff. She is growing up learning empathy, getting involved by helping others, learning academics, and being educated spiritually. We couldn't be happier.”

"We have truly appreciated all of the dedication of the teachers and how they go the extra mile to make each child feel special. There are countless ways to get involved with the school. The children are not only in great hands but they are learning so much educationally, spiritually, and social emotionally."

"The quality education in a loving, Christian environment, great education, excellent opportunities to learn and experience so much, great friends, small class sizes."

"When we transferred our kids to Saint Luke, the teachers and students made our children feel welcome, safe and loved. We had hoped our children would feel comfortable in their new school and they were. Our kids quickly adjusted and as parents we were also welcomed not only by the staff, but by the amazing families at Saint Luke. Looking back we can't imagine our children being at any other school. Being a part of Saint Luke is being a part of God's love, word and a bigger family of great people."

"We are glad to be a part of Saint Luke, the teachers are all such a blessing to our children and our family."

"We really enjoyed the onset of religion teachings that is so lost in these times while at the same time reminding us as parents to keep God in our lives always. The school made us feel like we were part of a big family and that is what is bringing us back to the school coming this fall. Although we live in Roselle, we don't mind taking the daily commute to your school. I guess you can say, we found a little gem in Itasca that provides our child with quality education, care while at the same time reminding us that God is in our lives."
